ANNOUNCEMENT:

ANIMAL SPECIALTY CENTER LAUNCHES PET LOSS SUPPORT GROUP

As pet owners ourselves, we at Animal Specialty Center recognize that facing a pet's serious illness or the loss of a pet can be emotionally devastating. To provide pet owners with the help, support and counseling they need to better cope and manage through these very difficult periods, beginning Thursday, February 4, Animal Specialty Center will begin holding a no-cost ASC PET LOSS SUPPORT GROUP, 7:00—8:30 PM on the first and third Thursdays of each month. The support group sessions are open to the general public.

We are delighted that Laurie Sine, well-known for her exemplary work as moderator of pet loss support groups as well as working with individuals, couples and families, will be facilitating our sessions at our hospital. Laurie is a licensed social worker and certified community mediator and has counseled numerous owners grieving the loss or coping with serious illness of a beloved pet.

For further information about attending ASC PET LOSS SUPPORT GROUP sessions, please contact ASC at 914-457-4000. If you plan to attend, you are encouraged to bring a photo and/or memento of your pet to the group. We ask our referring veterinarians to pass this information along to their clients so that they may attend.
